
how can I train small child to play chess? hints?

Posted by marcfoster - 2008/08/01 09:00

Hi there, it's me again. I was wondering, I have a small child, how can I train him to play chess?

Hi Marc, how old is your son or daughter? You should play with him/her a lot but be careful. Let him win 40% of the time for motivation. When you start to have a problem and start losing even if you try your best, it's time for joining a profession kid chess club.

Don't forget the competition among the kids .The kids are fast learners by competing (playing against each other but also with adults.
